## Experience

### Deployh.ai

04/2024 – Present

*Team Lead, Full Stack Developer*

*Pune, India*

- Lead the development of a scalable SaaS product using Next.js, Firebase, and React.js, integrating robust prompt engineering and AI capabilities
- Design and implement scalable backend architectures with server-side actions, ensuring seamless integration with frontend components
- Optimize application performance through efficient database queries and frontend optimizations, ensuring high-quality user experiences
- Collaborate with and lead cross-functional teams to deliver high-quality software solutions, fostering a collaborative development environment

## Projects

### PDF AI | *Next.js, Convex DB, Gemini AI, Clerk*

- Architected and developed a sophisticated PDF analysis platform leveraging Google's Gemini AI for intelligent document processing
- Implemented real-time PDF parsing and text extraction with support for multiple file formats and sizes
- Designed an intelligent Q&A system that allows users to ask questions about document content with context-aware responses
- Built a robust user authentication system using Clerk with role-based access control
- Integrated Convex DB for real-time data synchronization and efficient document storage management

### Portfolio Website | *Next.js, Shadcn, Tailwind, Framer Motion*

- Developed a modern, responsive portfolio website showcasing professional experience and projects
- Implemented advanced animations using Framer Motion for enhanced user engagement
- Created custom reusable components using Shadcn/UI and Tailwind CSS for consistent styling

### My-Socials | *Next.js, Clerk, MongoDB*

- Designed and built a social media profile aggregator that allows users to manage multiple platform links
- Implemented secure user authentication and profile management using Clerk
- Created a responsive dashboard with real-time updates using MongoDB for data persistence

## Technical Skills

**Frontend Development:** React.js, Next.js, JavaScript (ES6+), HTML5, CSS3

**UI/UX:** Tailwind CSS, Framer Motion, Responsive Design

**State Management:** Redux, Context API, Zustand

**Database & Backend:** MongoDB, Express.js, Node.js, PostgreSQL, Prisma, Convex DB, Vector Databases

**Authentication & Security:** Clerk, Auth.js (NextAuth), Role-Based Access Control

**AI Technologies:** Google Gemini AI, Prompt Engineering, Vector DB Integration

**Version Control & Tools:** Git, GitHub, VS Code, Postman

## Education

**Yashashwi Education Society International Institute of Management**

06/2022 – 05/2023

*Master of Computer Application — CGPA: 8.0*

*Pune, India*
